SKILLS

Software: C++, Python, Java, WPILib, TypeScript, HTML/CSS, React, Git, TailwindCSS, FastAPI

Hardware: Solidworks, PrusaSlicer, Arduino, ESP32

EXPERIENCE

Co-President

May 2025 – Present

MechMania

Waterloo, ON, CA

- Lead a team of 8+ to organize, fundraise and run a robotics event for 13+ schools and 150+ students
- Design and implement robotics challenges and examples for participants to compete in
- Secured \$25000 in grants and sponsorships through target outreach and networking
- Created the official website with React, Tailwindcss, and Flask
- Handle relations with and provide technical advice to participants

Team Member

Aug. 2025 – Present

2702 Rebels

Waterloo, ON, CA

- Contribute to a competitive First Robotics Competition team
- Design parts and assemblies for important robot subsystems with Solidworks
- Program control systems with Java and C++
- Ranked 7th in Canada and 44th in the world by EPA
- Invited to the 2026 FRC Worlds

Substitute Lifeguard

May. 2026 – Present

Beechwood Parks Homes Associate

Waterloo, ON, CA

- Ensured a safe and fun environment for patrons
- Implemented creative and instructional tennis lessons for children
- Maintained up-to-date knowledge of CPR and First Aid

Student Leader

May. 2025 – Present

Waterloo Collegiate Institute Robotics Club

Waterloo, ON, CA

- Designed and delivered robotics lessons to a club of 60+ students
- Managed \$15000+ worth of club equipment
- Taught safety when dealing with equipment, reducing risk and creating space for a fun learning environment.

PROJECTS

Holo | C++, Java, Solidworks

May. 2026 – Jun. 2026

- Created a mecanum-drive robot capable of field-centric holonomic motion with an ESP32 at the core
- Custom designed and 3D printed robot frame
- Designed entirely in Solidworks, and prepared for printing with PrusaSlicer

EDUCATION

Waterloo Collegiate Institute

Waterloo, ON, CA

Sept. 2023 – Jun. 2027
